

Davis Mallory

Anyone Would Know

I don't have to hold your hand
You don't have to stand beside me
No it don't take much for it to show
Anyone would know, anyone would know

When I walk into a room
When I'm strolling down a city street
Baby any where I go
Anyone would know, anyone would know

Every look
Every smile
Every inch
Every mile

Feeling that never gone non-stop feeling
Twenty four seven three sixty five
You can't, can't deny
When it's true
You can't hide it
When we're together or alone
Anyone would know

I can't help but stare at you
When you're already staring back
The way you kiss me on my nose
Everybody knows, anyone would know

Every look
Every smile
Every inch
Every mile

Feeling that never gone non-stop feeling
Twenty four seven three sixty five
You can't, can't deny
When it's true
You can't hide it
When we're together or alone

Anyone would know

Every look

Every smile

Every inch

Every mile

Feeling that never gone non-stop feeling

Twenty four seven three sixty five

You can't, can't deny

When it's true

You can't hide it

When we're together or alone

Anyone would know

Anyone would know

Anyone would know
